Thanks! Not sure we'll need the full time --but good to know we've got it available if needed

As part of field activities, Please also provide a summary discussion on the drilling program and timing of the review of current existing wells, and criteria/ identification for installation of any addition wells as/if needed.

I just noticed that you limited our call on Friday to one hour.

EPA originally requested two hours and has the staff and time set aside on our calendars till noon--- as needed for full technical discussion. Thanks!
